## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-29, 39-67 and 77, drawn to a method of controlling a process of electrochemical machining and the corresponding arrangement.

Group II, claim(s) 30-38 and 68-76, drawn to a method of electrochemically machining comprising a material removing step and a workpiece changing step and the corresponding arrangement.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the two groups lack the same corresponding special technical features, particularly, group I requires information relating to the spectral composition of the measured voltage being determined and at least one process parameter is adapted accordingly and group II requires a material removing step where the current is supplied continuously and a workpiece changing step wherein the electric current is supplied intermittently in pulse periods.

3. A telephone call was made to Ernestine Bartlett on 26 August 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1742

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
